

Sumptuous Data Sciences Pvt. Ltd. (SDS) and Maharashtra Institute of Technology signs a MoU for collaboration.

Sumptuous Data Sciences Pvt. Ltd. (SDS) strives to foster symbiotic collaborations between industry and academia. To this end, SDS has partnered with the Maharashtra Institute of Technology, Aurangabad (Chh.Sambhajinagar), India through the signing of a Memorandum of Understanding.

The main objective of this initiative is to bridge the gap between academia and industry in healthcare data analytics, ultimately benefiting students, enhancing business performance, advancing societal welfare, and enhancing a knowledge-driven economy. As a part of this collaboration, Sumptuous Data Sciences Pvt. Ltd. will be working with MIT on internship program development, knowledge sharing through webinars, and human capital development.

About Maharashtra Institute of Technology: Gramaudyogik Shikshan Mandal (GSM), Aurangabad, is the parent trust of the Maharashtra Institute of Technology (MIT), Chhatrapati Sambhajinagar, established in 1975. For over five decades, the MIT group of academic and research institutions has been fulfilling the education and training needs of society. MIT seamlessly integrates academic learning with hands-on, experiential education.

An autonomous institute, MIT holds NAAC 'A' grade accreditation and is permanently affiliated with Dr. Babasaheb Ambedkar Marathwada University. It is also approved by AICTE Delhi and DTE Mumbai. The institute offers a range of undergraduate, postgraduate, and PhD programs in Engineering and Technology.

MIT is committed to establishing strong industry connections that will provide students with valuable training, internship, and placement opportunities. This collaboration will create mutual benefits for both the industry and the institute, fostering growth and innovation.

About Sumptuous Data Sciences Pvt Ltd. (SDS): SDS is a subsidiary of Sumptuous Data Sciences LLC, USA with global operations in USA, Canada, and in India. SDS is a technology and data solutions provider focused on biotechnology and pharmaceutical industry. SDS is committed to bring innovative data analytics solutions to its biotechnology clients, government authorities, as well as to the public health organizations. SDS has a strong track record of supporting and contributing to various new drug development programs to bring novel therapies and treatments for patients to cure diseases and to improve the patient quality of life. SDS is looking forward to capitalizing on this partnership to contribute to the growth of a knowledge-based economy and uphold our social responsibilities.
